

# Toll Group

## Dangerous Goods Policy

### Overview

Toll Group is committed to providing a safe, secure logistics service to our clients in transporting, handling and storing their products classified as dangerous goods and to provide for the safety of all employees, the community and the environment.

### Scope

This policy applies to everyone who works at Toll in any capacity, whether full-time, part-time or casual, including temporary employees, contractors and subcontractors.

### Principles

At Toll we will:

- ensure that all activities involving dangerous goods and hazardous chemicals are administered to the highest level required by the relevant legislation and that all applicable licences and permissions are in place for our employees, contractors, sites and equipment involved,
- supply services only to customers who recognise and operate to the strict guidelines of all relevant legislation,
- ensure all employees and contractors engaged by Toll, involved in the storing, handling or transportation of dangerous goods or hazardous chemicals, are trained and provided with information, personal protective clothing and safety equipment necessary to minimise the risks associated with those products,
- ensure contractors are evaluated for their compliance to carry dangerous goods and hazardous chemicals prior to their engagement, and are regularly checked to ensure they maintain their compliance,
- ensure all dangerous goods consignments are checked for compliance with relevant dangerous goods legislation prior to acceptance of the goods by Toll, and
- have documented procedures, checklists and review systems in place to cover all aspects of our operations involving dangerous goods.

Dangerous goods and/or hazardous chemicals restricted by legislation for storing, handling or transport will not be stored, handled or transported unless the relevant licences or permissions are in place and approval given by the relevant Toll Business Unit General Manager.

### Further Information

For further information contact your manager, HSE representative or Human Resources representative.
