# Partner with us

## PEOPLE

### Industry know-how

- End-to-end solutions flexible to your needs across fleet, facilities, IT, safety and sustainability.
- We understand the needs of your dealership networks.
- Our teams manage your complete SKU range, including reverse logistics, battery management and product recalls.
- Scale-up as you need with *Toll People*, our skilled in-house labour hire service.

## SERVICE

### Unparalleled network reach

- National reach with seamless integration via air, road parcels, final mile, rail and sea.
- Optimised multi-modal network to maximise cost-efficiencies and enhance dealer experience.
- Specialists in linehaul, cross-dock and load consolidation to dealerships daily.

## TECHNOLOGY

### Advanced final mile routing

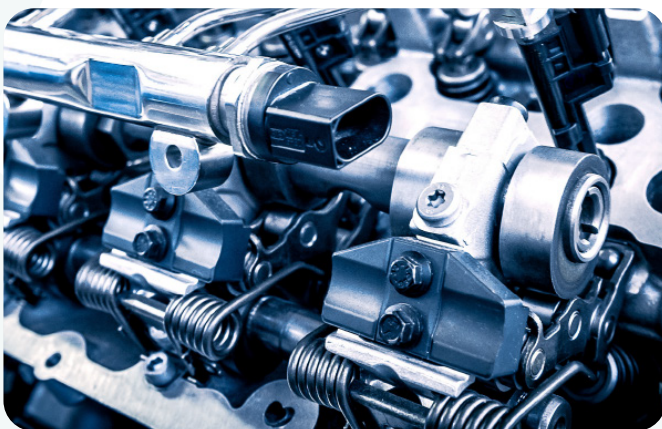

- Our software optimises final mile dedicated delivery routes to your dealership network - improving speed to market, minimising damages and split deliveries.
- Sophisticated transport telematics provides real-time event management.
- Full suite of Power BI analytics, including DIFOT, volume and damages by SKU, mode and dealer.

## INNOVATION & SUSTAINABILITY

### Value added services

- Night-key deliveries to maximise payloads and reduced traffic congestion.
- Co-loading with other auto manufacturers to improve cost and CO<sub>2</sub> efficiency.
- High cube equipment, cross docking network revision and modal changes.
- Tailored packaging and kitting services.

## THE TOLL DIFFERENCE

▮▮ **Our aftermarket expertise paired with innovative and forward-thinking solutions, ensures all our customers have full visibility of their supply chain from end-to-end.** ▮▮
