## PEOPLE

### Industry know-how

- We offer end-to-end solutions flexible to your needs across fleet, facilities, IT, safety and sustainability.
- Skilled and specially trained teams manage all facets of your product profile and customer needs.
- Leading safety and quality systems underpin our high service and operational capabilities.
- Scale up as you need with *Toll People*, our skilled in-house labour hire service.

## SERVICE

### Vast networks and distribution

- Complete management of 24/7 warehouse operations and deliveries.
- Agile and efficient operations that flex to your seasonal peaks.
- Quality assurance accuracy across all operation.
- Value-added services include kitting and store-ready packaging, seasonal and promotional co-packing.

## TECHNOLOGY & INNOVATION

### Smart warehousing and distribution solutions

Always customer-focused, we provide:

- warehouse automation from AGVs, cobots and voice picking through to full ASRS solutions.
- integrated and monitored freight movements for visibility to store, quality assurance and audit tracking.
- continual innovation programs managed by our in-house data analytics team. e.g drone technology.

## QUALITY SYSTEMS & SUSTAINABILITY

### Delivering compliance and performance

- Finished goods and raw material management - to date, batch and quality control compliance standards.
- Control tower capabilities for end-to-end visibility, real-time analytics and enhanced collaboration.
- World class compliance processes to ISO9001, AMCAS and specific food grade management standards AA, DAFF, HACCP and FSSC220000.
- Data-driven initiatives reduce carbon, packing usage and transport costs.

## THE TOLL DIFFERENCE

“ Our FMCG logistics is tailored to meet your specific customer needs.

Trust us to optimise your inventory and get products to your customers in a fast, safe and sustainable way. ”
